Your Next meme token

NFTP TOKEN

NFTPossion(NFTP)

Meet the next generation of NFTs Marketplace with Metaverse Gaming feature in NFTPossion.

The team at NFTPossion is building a unique NFT metaverse product where users can create, upload, and monetize their virtual assets - allowing true digital ownership of your creations.

Definitions

NFTs (Non-Fungible Tokens)

Non-fungible tokens are virtual tokens minted on the blockchain for digital scarcity, security, and

authenticity. They are unique, indivisible, and non-interchangeable - allowing true digital ownership of your creations.

Metaverse

The metaverse is an interactive virtual world. It's a combination of multiple elements of technology, including virtual reality, augmented reality and video where users "live" within a digital universe. Supporters of the metaverse envision its users working, playing and staying connected with friends through everything from concerts and conferences to virtual trips around the world.

Using blockchain technology, users can own digital assets that are unique in the metaverse making them invaluable.

About NFTPoisson

NFTPoisson is a virtual NFT marketplace plus Metaverse Gaming feature where users can create, upload and monetize their digital virtual assets.

It empowers artists and creators of all works of life to unleash their creativity.

As a user, you can create digital assets (Non-Fungible Tokens, aka NFTs), upload them to the marketplace, offering the advantages of true-ownership, digital scarcity, monetization capabilities, and interoperability.

The NFTPossion marketplace platform will be powered by its own main utility token NFTP - a deflationary meme token.

NFTPossion is taking advantage of the metaverse - and it contains the most important features of decentralised finance and cryptocurrency collectibles allowing users to mint their tokens.

Tokenomics

Vision

Alongside the rise of NFTs in 2021, we believe that NFTs are still at an early stage. The blockchain technology and smart contract capabilities could in fact create better experiences for many verticals that could not be facilitated by its web 2.0 counterparts.

People are spending increasingly more time in virtual worlds (metaverse), for both leisure and work.

NFTPossion will make it easy for users to monetize unique digital assets that have great value.
